## WORK EXPERIENCE

---

### Geiger

February 2022 – Present

*Full Stack Web Developer*

*Lewiston, ME*

- Use Javascript, JQuery, SQL, and HTML to develop in-app solutions.
- Design and develop scalable and efficient solutions according to business objectives and the needs of various clients.
- Maintain complex technology infrastructure and collaborate with the product management team to implement new features.
- Strategically plan for future products by ensuring my solutions are scalable.
- Document all solutions I develop with the goal of advancing the readability of our codebase.
- Work with legacy code and frameworks to modernize outdated web infrastructure.

## EDUCATION

---

### Ithaca College

August, 2022

*B.S Computer Science*

*Ithaca, New York*

- Developed and deployed a SQL database to hold records for criminal cases in order to identify potential trends of judicial corruption in courts.
- Enrolled in a unique internship opportunity at 42 School in Silicon Valley, where I developed solutions to complex algorithmic problems using the C language.
- Worked as a Student Cook throughout college, always a fan to get my hands moving and mind off of programming after heavy days in front of a screen.

## SKILLS & INTERESTS

---

- **Languages:** React, SQL, PostgreSQL, HTML/CSS/JS, SASS, JQuery, JSON, User Interface/User Experience (UI/UX).
- **Skills:** Strategic Planning, Communication, AGILE Development, Public Speaking, Project Design.
- **Interests:** Fitness, Cooking, Sleeping, Video Games, and Learning because I can never know too much.

## PROFESSIONAL PROFILES

---

- [Github](#)
  - My GitHub hosts pet projects that I do throughout the year. The majority of them don't hold professional weight, but they are completed projects. The most recent being a fully responsive [personal library catalog](#).
- [Linkedin](#)
