WORK EXPERIENCE

Geiger   **February 2022 – Present**
Full Stack Web Developer   *Lewiston, ME*
- Use Javascript, JQuery, SQL, and React to develop in-app solutions.
- Design and develop scalable and efficient solutions according to business objectives and the needs of various clients.
- Maintain complex technology infrastructure and collaborate with the product management team to implement new features.
- Strategically plan for future products by ensuring my solutions are scalable.
- Document all solutions I develop with the goal of advancing the readability of our codebase.
- Work with legacy code and frameworks to modernize outdated web infrastructure.

EDUCATION

Ithaca College   **August, 2022**
B.S Computer Science   *Ithaca, New York*
- Developed and deployed a SQL database to hold records for criminal cases in order to identify potential trends of judicial corruption in courts.
- Enrolled in a unique internship opportunity at 42 School in Silicon Valley, where I developed algorithmic solutions to complex problems using the C language.
- Worked as a Student Cook throughout college, always a fan to get my hands moving and mind off of programming after heavy days in front of a screen.
